<sup>#</sup>Fuel consumption and CO<sub>2</sub> emissions figures are determined according to the WLTP test cycle. Full data relating to WLTP test cycles can be found at: [www.opel.ie/wltp](http://www.opel.ie/wltp) Figures are intended for comparability purposes only. The fuel consumption you achieve under real life driving conditions and CO<sub>2</sub> produced will depend upon a number of factors, including the accessories fitted after registration, variations in driving styles, weather conditions and vehicle load. Only compare fuel consumption and CO<sub>2</sub> with other vehicles tested using the same technical procedures. For more information contact your local Opel Dealer.

- A three-year/100,000km manufacturer's warranty
- Opel Assistance for 12 months from first registration
- 12-year body panel anti-perforation warranty

\* = Warranty is only available on vehicles sourced from authorised Opel Ireland Dealers. Terms and conditions apply – please see your Opel Dealer for details.

## Transmission

**Six-speed manual gearbox**

**Six-speed automatic transmission with ActiveSelect® function**

A six-speed automatic transmission is optional. On the road, a wide selection of shift patterns is adapted to the style and habits of the driver, anticipating when maximum acceleration or maximum efficiency is required. The electronic control will also adapt to the prevailing road conditions, reducing gear shifting when climbing or

descending and using engine braking assistance during down changes. The ActiveSelect® manual mode allows the gear lever to be used like a sequential manual gearbox – you simply push the lever forward or back to change up or down the gears. The driver also benefits from a 'neutral' gear disengagement at idle, which reduces vibration and contributes to improved fuel consumption.

## Braking and stability

- Electronic Stability Programme (ESP)
- Cornering brake control
- Straight line stability control
- Rollover mitigation
- Drag torque control
- Hill start assist

**Note:** Minimum Mass ('Mass in running order' on Certificate of Conformity and 'Mass in Service' on V5C form) is defined according to European Type Approval and include all fluids, tools, 90% fuel load and driver (75kg). It is minimum mass for this variant and does not consider local specification/trim. Weights are also subject to manufacturing tolerances (EU Legislation allows 5% tolerance). Payload figures do not allow for the weight of the driver, or any passenger's, which should therefore be deducted from the figures shown. **Gross plated weights** (including axle weights) quoted on the vehicle plate are to UK and Ireland plated weight specification and must never be exceeded. **Roof load** should not exceed 75kg including the weight of the roof rack/carrier.
